**Architectural Decorative Meshes**

## About Us

**Zain Corporation**, is a Pune based company, founded in the year **1985**. Dealing in Various forms of Wire Meshes, with a simple business philosophy in mind "Offering the best products, at the best prices, with the best service". Zain Corporation is proud to introduce the newest product to its collection ADM (Architectural Decorative Mesh).

The beauty of ADM is that it has both a physical texture and an aesthetic appeal that speaks volume about its unique method of Processing. It is apt for indoor and outdoor usage , as well.

Having a very wide range of applications, It can be used as Wall decoration, Ceiling, Partitions, Metal curtains, Elevator inner decoration, Furniture decoration, enhancement and many more.

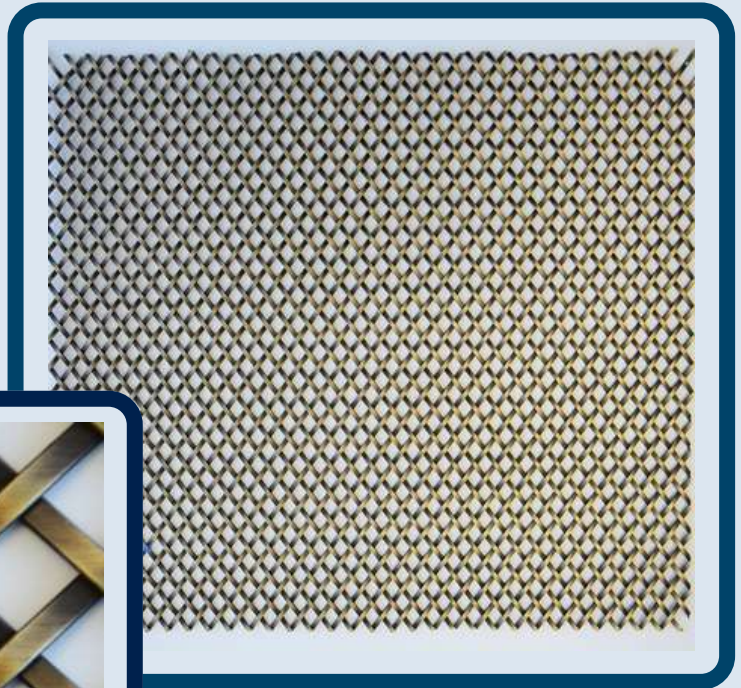

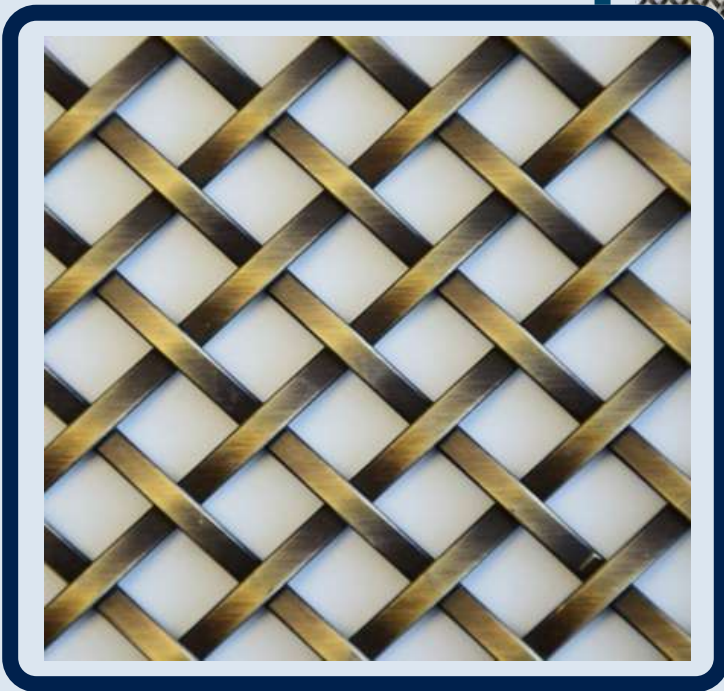

Functionality – It can stand regular wear and tear as well as heavy use with additional fabrication for rigid and flexible mesh.

Each design can be adopted to fit any type of application.

It also requires minimal maintenance to keep the mesh looking bright compared to other materials. In addition, ADM is flexible and generally easy to shape and cut making it suitable for any internal or external application.
